A PROGRAMME TO AROUSE THE HIDDEN GENIUS IN OUR STUDENTS “TREASURE-HUNT” IN ENGLISH

Selecting : “The Best English Speaking School” and
“The Best Discoverer of the wealth in English”,
unknown to the world so far.

Jacob Nettikkadan (JN), the most beneficent philologist in 20 centuries, has invented or discovered over 5,700 new things in the English language out of his 54 years' private research. Now, they are included in his English text book “Easy Way To Learn English” in four volumes, available as E-BOOKS for off-line reading on your computer @ Rs.960.00 life long, under password restriction.

JN offers the thrill to take free classes for two hours every working day for a month and make the participants taste the simplicity of his most scientific methodology to teach English, which is full of mesmerizing, hair-raising, mysterious short-cuts expressed through stories, similies and diagrams. Full details of the methodology are available in his websites www.jacobnettikkadan.com / [.org](http://www.jacobnettikkadan.org) OR www.xavierinstitute.com / [.org](http://www.xavierinstitute.org) under the heading “**Ten Items of Jacob Nettikkadan’s Contributions**”. Read at least items No.1, 2, 3 and 4.

JN is the only person living today who can guarantee and fulfil that there will be no confusions or doubts for the learner of English who can expect ten times of new knowledge about the internal designs and decorations. There must be minimum 50 students* who buy the E-BOOKS which include a free book on Personality Development (**the sacred tonic to make students mentally energetic, enthusiastic, dynamic, smart and successful in future life**). The school has to provide all the facilities to conduct the English class in their premises, free of cost.

If there are at least 10 (ten) buyers from a class, the class teacher will get a free copy of the E-BOOKS. The Principal can recommend complimentary E-BOOKS for 5 (five) people, if the total number of buyers is 100 (one hundred) from a school. Basis: “First come, first served”.

Read details of the Launching of E-BOOKS for seven days at a discount of 56% from our website. Look for “**Register your name now**” and “**For making payment to our bank account**” in our website.

* meant for schools which are within three kilometres from our office at Kaloor, Kochi and for students studying in Class 8, 9, 10, 11 and 12.

The details of the new methodology:

IS THE “NETTIKKADAN METHODOLOGY TO LEARN ENGLISH” SO EASY ? !!

First of all let us understand ‘what the most important reason for our failure to speak English is, in spite of our learning for a long time. In the existing style of our learning English, we do not get the opportunity to learn to speak English from our home. Instead we learn it in our mother tongue. But, when we go to school, our teachers fail to use the technology to make us speak English in classrooms. In England, people get the speaking power in English from their own home, because English is their mother tongue. So, teachers need not teach it in school there. If we want to speak English, we have to learn how to make our own sentences in English. But, in school nobody teaches it. It is the Philologist Jacob Nettikkadan who invented the technology needed for it in 1978 out of his private research for 54 years. What he invented is the technology to make 1,877 types of sentences in English, starting from the smallest to the largest sentences. We will have to select one out of these 1,877 sentences as and when we need. To make such sentences, we have to use a very simple technique or formula which he has invented for the purpose of making each sentence. The most interesting aspect in this is that every sentence is made by using one out of the total 1,877 usages of the word “Verb”. Then we will be able to make new sentences by using the very usage of similar other Verbs which we know. Therefore, when we learn all the 1,877 usages of Verbs in English, we will acquire very deep knowledge and expertise that can make us feel happy, proud and confident. Out of these,

- # If we master three categories of sentences, we can reach the English children level.
- # If we learn 15 categories of sentences, we can reach the level of adults.
- # If we cover all the 1,877 types of sentences in English, we can become a rare expert and an unusual Scholar who can speak and write English confidently, because we will not need extra types of sentences in English.

The slogan of the “Nettikkadan Methodology” is :

“Years of study reduced to hours of study” or
“5% study burden; 500% study benefits”.

THE METHODOLOGY IN DETAIL :

The method of learning the 1,877 usages of Verb is certainly exciting and amazing to any scholar. The study is intensely interesting, rather intoxicating. The foundation of the English language for us has been made out of the ‘Language Science’ which he has invented. What we have been doing so far is “trying to build an English palace without foundation, and again without a construction method”. In the process we failed. But we need not fail in the “Nettikkadan Methodology”.

A MAGIC CHART THAT PRODUCES AMAZING RESULT, USING ‘LANGUAGE SCIENCE’

Choosing 14 words from the English language in the ‘Actor’ column and another 14 words in the ‘Receiver of Action’ column, we can acquire ten times more knowledge, communicating skill in English and self-confidence in a few hours than a student might acquire from an ordinary school in five years. You can make an experiment and get full conviction of this claim.

Actor (Subject)	Action (Verb)	Receiver of Action (Object)
Any Noun (s): boy = ആൺകുട്ടി Any Noun (pl): boys = ആൺകുട്ടികൾ Personal Pronouns I = ഞാൻ We = ഞങ്ങൾ, നമ്മൾ You (s) = നീ, നിങ്ങൾ, താങ്കൾ You (pl) = നിങ്ങൾ He = അവൻ, അദ്ദേഹം She = അവൾ, അദ്ദേഹം It = അത് They = അവർ, അവ Q. Pron. Who (s) = ആര് Who (pl) = ആരെല്ലാം Other (s) This = ഇത് prons.(pl) These = ഇവ	<p style="text-align: center;">Saw</p> (Use similar form of other Verbs & make new sentences.)	boy = ആൺകുട്ടിയെ boys = ആൺകുട്ടികളെ me = എന്നെ us = ഞങ്ങളെ, നമ്മളെ you (s) = നിന്നെ, നിങ്ങളെ, താങ്കളെ you (pl) = നിങ്ങളെ him = അവനെ, അദ്ദേഹത്തെ her = അവളെ, അദ്ദേഹത്തെ it = അതിനെ, അത് them = അവരെ, അവയെ whom (s) = ആരെ whom (pl) = ആരെല്ലാം this = ഇതിനെ these = ഇവയെ

Using this very chart, Jacob Nettikkadan taught Malayalam to Dr. Chethana Krishnakumar (from Karnataka) for two hours and made her speak Malayalam sentences independently within two hours, which became a T.V. news on October, 04th 2002. This was possible because JN had discovered that Malayalam is the easiest language in the world according to the “Linguistic Yardstick” he has invented.

To convert single words in the first and third column of the above chart into many words, needed for making the largest sentence in English, **you have to learn only a single technique in this Methodology.** The remaining study in the Methodology is only to learn ‘what the 1,877 types of usages of the word ‘Verb’ are’. **When you make such deep exploration in English, you will come across the most dangerous “Bermuda Triangle” of the English language.** Most of the teachers avoid this most complex, confusing and irrational area conveniently. **But in the “Nettikkadan Methodology”, you are carried across the area safely by building up a “Very User-friendly Fly Over”.** But when you travel through the fly over, **you will get acquainted with many totally new and unhead of areas in English.** After that, your communication skill in English will touch new heights; it will become more powerful and you will feel authoritative in English.

After this, you will get thousands of sample sentences in each level to recite repeatedly, using the Fluency Technique (again invented by JN) till you acquire fluency and be able to produce your own sentences without mistake. Besides this, the books provide you stories, conversations and topic writings in EACH LEVEL. **You will never get such books anywhere in the world now for learning a new language.** You can never fail to get command in English, if you learn and practise such a book. When you learn all these items as prescribed in the book, you can grow in English; your self-confidence will hit the roof of your building and you can use English in your future life and become a successful person.

The control and influence of the most powerful five words in English “can, may, should, must and ought to” are mysterious and shocking. When you acquire the complete usage of these five words in “Nettikkadan Style”, **you will get a feeling equal to becoming the highest billionaire in the world.** Your self-confidence will cross limits. When you learn about a totally new invention added by us in this area, **you will feel like getting into a “Water Craft” or “Hover Craft” in English,** in which you travel on land and water continuously. You will get total freedom from so many of the difficulties faced in many areas of English so far. **You will don a special courage, self-confidence and satisfaction, which you have never experienced in life earlier.**

We intent to begin a “National Competition” to make our young students re-discover the new things , numbering over 5,700 in the English language, which Jacob Nettikkadan has invented or discovered and incorporated in his English Text Book “Easy Way To Learn English” in four volumes. The competition is to select “The Best English Speaking School/College” and “The Best Discoverer of the most precious knowledge in English” in our country. You can get more details from our website www.jacobnettikkadan.com / .org OR www.xavierinstitute.com / .org under the heading “National Competition” in the English language.

When you buy the four volume English Text Book “Easy Way To Learn English” as E-BOOKS, you will get another invaluable book “The Importance of Personality Development” free.
