- [Jacob Nettikkadan](#)

Jacob Nettikkadan insists that every school, college and University should display the definition of education, because it is this definition that should guide syllabus makers to make the syllabus to meet the objective in the definition. Similarly, the book writers and school text book makers should appropriately be guided by the definition. Again the people who run educational institutions should make arrangement to produce the desired result as per the definition. The teachers and the question paper setters and the evaluators also should consider it their bounden duty to go ahead as per the definition. If all the parents and the studying children also are aware of the definition, education will produce the desired result : "Human beings will have human mind, human characteristics, human behaviour, human inter-personal relationship etc. to make this world a literal "Heaven on Earth" - free from fear, terror, cheating, lies etc.

- [Jacob Nettikkadan](#)

There is a wide-spread complaint that the present-day education without 'definite objective and purpose' converts human children into "broiler chicken". It is because the education does not empower them to use thinking power, especially 'rational and logical thinking power'. But I have come across a spoken English course (which offers "Double Money-back") instigating learners to speak English without using conscious mind and also without knowing "what is what". **I feel that system will convert human children to "boiled chicken" (not 'broiler chicken')**. Jacob Nettikkadan wants you to use your full mind, know everything 'accurately, clearly, completely and convincingly about English, so that your mind will grow 'like a running taxi meter' when you learn English from him.

**If we do not possess "wisdom" sufficiently according to our age, academic qualifications, official position and rank, as well as social status, we cannot earn love, respect and recognition from others. It is because, without "wisdom", our thinking level, speaking style and activities all will be below the level expected by others. We cannot also be successful employees holding high positions and earning heavy salary, or popular leaders in the political, social or any other field. Others will not hold high esteem for us and be with us or obey us.**

Like · · [December 27, 2011 at 10:35am](#)

• [Jacob Nettikkadan](#)

Everywhere when children grow up, they ask numerous questions. If adults give them correct and convincing answers, their learning process grows. At the same time, they also develop rational and logical sense without knowing what these qualities are. **Only if they use rationality and logic in their life, they can produce "wisdom" themselves. Wisdom cannot be bought from market, begged, borrowed or even stolen., It has to be produced by ourselves by using "rationality and logic".** That is why Jacob Nettikkadan teaches it in his Original Communicative English course, so that all his students will produce wisdom in their life.

[Jacob Nettikkadan](#)

The educational field everywhere has been degraded badly by four classes of people : (1) Political authorities, (2) Government researchers and syllabus makers, (3) the degree-holding mental illiterates in the educational field, (4) the business mafia. (1) The political contribution comes from (a) making education totally free including for the rich, (b) introducing 'all promotion' to contain Government expenditure on education, (c) asking teachers to give marks liberally to reach the goal of 100% pass. If you want to bring back true education, you have to erase these hindrances.

• [Jacob Nettikkadan](#)

Has any educational institution taught you what "Rationality, logic and wisdom" are ? Mr. Jacob Nettikkadan teaches these in the beginning of his Original Communicative English course. **Then only what new things he gives to students about the English language will enter their minds and they will grow in language, life and maturity. His book "The Importance of Personality Development" an essential requisite in true education, teaches hundreds of such essential items that help the Mind Power to grow at least according to the age of students. Absence of these reflect in the immaturity of mind of the learners.**

• [Jacob Nettikkadan](#)

Let us hope that the British Council and its allies will make a new year resolution to stop teaching Brenglish (the faulty style of speaking English by the British) through IELTS coaching. Instead, they will change the style of teaching English to the Englishmen and make them speak English properly, so that other people in the world will understand it without any difficulty. We can also hope that if they adopt the Original Communicative English course of Jacob Nettikkadan, they will have more scholarly knowledge in English and be free from confusions and doubts.

• [Jacob Nettikkadan](#)

If the Hindu newspaper is ready to support Jacob Nettikkadan in a deserving manner through their daily, he is ready to implement his own definition on education at least in the field of all students speaking fluent English confidently. **They will also have scholarly knowledge in English, free from any confusion or doubts. They will possess sufficient employability through correct personality development. Another guarantee : most of his students will not be unemployed.**

They will also be loyal to the society and patriotic to the nation.

• [Jacob Nettikkadan](#)

When you visit any educational institution or read their prospectus, check whether they have displayed the definition of education anywhere. If not, ask for it. Then you may be shocked to realize that nobody has ever cared for a definition on education, which is a fundamental need. If you want to revive the flattened educational field, first you have to know the definition and then insist on its implementation. For you, Jacob Nettikkadan has defined education in the Facebook on 15-12-2011 (see the personal profile page very kindly provided by the Facebook authorities).

All well-meaning people in society are certainly NOT keeping quiet about the educational field losing its direction and goal. The Hindu could look into the website of Mr. Jacob Nettikkadan [www.xavierinstitute.org](http://www.xavierinstitute.org) or .com OR [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org) and also read his comment in today's Facebook and also on 15-12-2011 in his personal folio very kindly provided by the Facebook.

## Has education lost its heart?

[www.thehindu.com](http://www.thehindu.com)

Education today in our country has not only lost its heart; it seems to have lost its direction and goal. It is a sad situation for the future generation. Well-meaning people in society are keeping quiet. The powers that be, who ought to know better, seem to be either ignoramuses or they couldn't ca...

[Jacob Nettikkadan](#)

Mr. Jacob Nettikkadan has given great importance to teach what "rationality and logic" are in his book "The Importance of Personality Development". It is because he has found out that 'each time we use rationality and logic in our activities, we produce wisdom'. He has observed that a vast majority of people today do not know what "rationality and logic" are. Hence, they do not produce wisdom in them. He also adds "We cannot buy, borrow, beg or steal wisdom". When people do not possess wisdom, their activities usually go wrong or undesirable. He also finds that people with heavy academic qualifications and in high position or authority do not display wisdom in their programmes, projects and activities. Then the humanity has to suffer the consequence.

[Jacob Nettikkadan](#)

My dear friends in the Facebook,

The Skipe authorities have very kindly arranged to provide me a 'video-conferencing facility' on their own. They also informed me that 42 of my friends are waiting to talk to me on 'video'. Therefore, I shall be available for a video conference tomorrow (Saturday 17-12-2011) at 7.30 p.m. I am not having much knowledge on computer operation. I am 73 years old, but have enough spiritual energy (not physical energy). **My mental energy and experience can be considered at 730 years. My achievements can be linked to 7,300 years. Visit website : [www.xavierinstitute.org](http://www.xavierinstitute.org) or [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org)** . I am staying in CITY PALACE (E.V.Homes), AZAD ROAD, KALOOR, KOCHI - 682017 - just opposite to Mathrubhoomi office at Kaloor. Ph. 9846008621 ; Residence No. 0484-4047769 . All those who are waiting to talk to me are most cordially invited to talk to me on Skipe a/c. NETTIKKADANJACOB. e-mail : [nettikkadanjacob@gmail.com](mailto:nettikkadanjacob@gmail.com) (Better send it to [mail@xavierinstitute.org](mailto:mail@xavierinstitute.org) or [mail@xavierinstitute.com](mailto:mail@xavierinstitute.com) ) On Facebook, you can read my postings on a page very kindly provided by the Facebook authorities under the name "Jacob Nettikkadan".

[Jacob Nettikkadan](#)

Mr. Jacob Nettikkadan (website: [www.xavierinstitute.org](http://www.xavierinstitute.org) , [www.xavierinstitute.com](http://www.xavierinstitute.com) , [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org) ) defines education as : **“Education is the process of empowering our children, the youth or others to acquire the necessary knowledge, skills and self-confidence to lead an independent life in their future (especially to look after their would be family befittingly) apart from developing the required human behaviour, excellent characteristics, right**

attitude and above all a lovable interpersonal relationship where leadership, personality development and management play a big roll.” According to Mahatma Gandhi, the total personality development is true education. It is here the book “Importance of Personality Development” written by Mr. Jacob Nettikkadan becomes an inevitable requisite in the educational field.

Look into your past and measure "How much of the promised items from education you have been able to get during your education" ?

[Jacob Nettikkadan](#)

The British Council can be sensible and wise even now; forget about the past mistakes. So far they have done the expensive crime of teaching the rest of the world "Bringlish" (the defective style of speaking English by the British), so that the rest of the world can understand when the British people speak. They should instead study what the 5,700 corrections or improvements invented/discovered by Jacob Nettikkadan over the existing English are and teach the Original Communicative English to the British people, so that they will speak English correctly and properly. They should not continue with the Duplicate Communicative English courses themselves and encourage the foolish Indian Universities to follow suit, to save thousands of Indian students from wasting money, time and efforts uselessly for long years and gain frustration in the hope of getting Communicating ability in English.

Like · · [December 12, 2011 at 8:28am](#)

[Jacob Nettikkadan](#)

On 14th and 15th Nov. 2011, Jacob Nettikkadan wrote in the Facebook about the gravest fraud or the most wretched crookedness ever committed by a PhD holder who has been the Educational Consultant of Kerala Government in India. He imaginatively transferred the invention of Jacob Nettikkadan "The Original Communicative English teaching system" to Noam Chomsky, a reputed American Linguist. Then assuming himself to be the disciple of Noam Chomsky, he started teaching English to Keralites in the most scientific manner. But by that time (after a gap of 8 years), Jacob Nettikkadan came out with the English version of "Easy Way To Learn English" in four volumes. The PhD fraud stopped his teaching English midway. The IB, the Crime Branch, the CID or any other investigating agency should locate the notorious public culprit and give him deserving treatment. The Hon'ble Kerala High Court also could make a suo moto case against this heinous crime. So far no "truly educated mind" in the Education Department of Kerala Government has come out with the "Case study".

[Jacob Nettikkadan](#)

The British Council has not contacted Jacob Nettikkadan on his suggestion to be wise to teach the Englishmen the correct way of learning and speaking English (instead of "Bringlish" as at present) which other people all over the world cannot understand. Since the Englishmen understand when others speak English, the British Council and its allies should give up teaching the entire world "How to understand "Bringlish" through IELTS coaching". They can surely take the help of Jacob Nettikkadan for this wise step which will save the people of the rest of the world high expense and avoidable torture of learning "Bringlish speaking style", so that they will understand the present Englishmen when they speak "Bringlish". Jacob Nettikkadan Methodology increases the status and dignity of the English language and the British Council should be happy and proud to use it all over the world.

Like · · [December 10, 2011 at 11:57am](#)

[Jacob Nettikkadan](#)

Jacob Nettikkadan claims that he is capable of teaching the English language "Without any confusions or doubts" to the learner. He has obtained this capacity and confidence out of his 50 years of personal research in English during which he has made small inventions or discoveries to make 5,700 corrections or improvements in the teaching of English over the system the Englishmen brought from Great Britain centuries ago and introduced in India and other non-English speaking countries. He requests the British Council, the British Government, the U.N. (UNESCO) and all the Universities in the world to find out another person with the same ability. Otherwise they should take his help to introduce his Original Communicative English teaching system all over the world and save the learners including those in the U.K. whose minds are filled with utter confusions and numerous doubts as well as to guarantee Communication Skill in English.

[Jacob Nettikkadan](#) Hallo Rizwan, I am happy to get at least one person who thinks rationally and logically and agree to my contention. Tks a lot.

Like · · [December 10, 2011 at 11:57am](#)

[Jacob Nettikkadan](#)

On 21-11-2011 Jacob Nettikkadan pointed out a faulty action on the part of the British Council and its allies in teaching and creating heavy monetary loss through coaching the non-English speaking world "The wrong style of speaking English by the British", so that they may understand the defective way of speaking of the Englishmen. He has recommended them to change the course of action to "Teach the correct way of speaking English to the Englishmen as they write or speak English without swallowing words". This must have happened for centuries because the so-called experts, scholars and researchers in the rest of the world including those in the United Nations failed to evaluate things properly or "Adored the British blindly". Let humanity be saved from this costly torture.

[Jacob Nettikkadan](#)

Jacob Nettikkadan discovers a shortcut for humanity to solve the problem on speaking English. At present the British Council and its allies are making elaborate arrangement to teach the non-natives of English "The faulty style of speaking English by the British people", so that other people will understand the wrong way of speaking of the Englishman. If steps are taken to teach the English people speak English as they write, the rest of humanity can be saved from the torture and heavy expense of undergoing IELTS coaching. If the natives speak proper English as they originally designed, everybody else can understand their English. Let the British Council use the Original Communicative English invented by Jacob Nettikkadan to teach English people English to speak properly without confusion and doubts, and uphold the respect of the English language.

Like · · [November 21, 2011 at 7:48pm](#)

[Jacob Nettikkadan](#)

Jacob Nettikkadan has claimed that his Original Communicative English contains 5,700 small inventions and discoveries on the English teaching system introduced by the British centuries ago. These can be considered corrections or improvements in teaching English, which have enabled Jacob Nettikkadan to guarantee his students to be free from confusions and doubts and make it a comfortable jet aeroplane journey to complete the whole English in a few weeks which Universities cannot complete in 20 years. No PhD or University authority has come forward to verify it. Without these 5,700 amendments their Duplicate Communicative English degree course is ineffective, time-wasting and money-laundering alone.

[Jacob Nettikkadan](#)

The first political contribution for killing the real education was "Free education at Government expense without collecting any fees even from rich students". Because of the heavy financial burden on account of the free education, political authorities had to take a follow-up and corrective action to "Make all promotion for all students including those who got zero marks, up to metric level". Thus it paved way for all students including the brilliant students to neglect study, because there was no distinction for those who study well from those who fail utterly. Thus till recently, there was a hold up of worthless students at metric level. But in recent years, the political authorities wanted to see high percentage of pass at metric level and asked the teachers to be very liberal in giving marks. **So now the percentage of pass at metric level is world record. The only problem for the society and the nation is that we have large percentage of normal students mentally unfit for any useful purpose.**

If the so called "Government appointed researchers in the educational field are offered an alternative job to convert the deserts in Rajasthan, probably it will produce multiple benefit for the nation. Each of them should be allotted five hectares of the desert and asked to cultivate fruits, vegetables or cereals. What a wonderful benefit will emerge for the nation and its people ! : "The supply of those items will increase and price will reduce". **A greater benefit will be that they will not destroy the future generations of our children with their research results in the educational field.** Then the political authorities can make use of private inventions like that of Jacob Nettikkadan in teaching English combined with Personality Development and by using science in language teaching, without any confusion or doubt in the English language and enable students get 500% study benefits at 5% study burden and duration of study.

Like · · [November 18, 2011 at 2:37pm](#)

[Jacob Nettikkadan](#)

On 16-11-2011 Jacob Nettikkadan suggested that the campuses of those Universities which confer worthless degrees should be converted into agriculture, farming or cattle rearing fields, to save the society and the nation from degradation. The authorities and the employees of such Universities may console themselves "Nobody will terminate our jobs. We will continue to get our monthly salary, perks and even the often-increasing pension without fail. Then why should we be worried ?".

Like · · [November 17, 2011 at 2:29pm](#)

[Jacob Nettiikkadan](#)

Our country can progress satisfactorily only when our authorities and the people are able to distinguish between University degrees which are "useful" and "useless". Then they should also be able to covert the campuses of Universities which provide "unless degrees" into agriculture, farming or cattle rearing fields. The recipients of "useless degrees" cannot distinguish between what are "good and bad", between "right and wrong", between "great and ordinary", between "original and duplicate" etc. Then there will be no Universities conducting "Duplicate Communicative English Degrees" which cannot guarantee good communication skill even in four years' full time course.

[Jacob Nettiikkadan](#)

Mr. Jacob Nettiikkadan reported on 14-11-2011 about the gravest fraud or the most wretched crookedness ever committed by a PhD holder who has been the Educational Consultant of Kerala Government in India. It should become a touching concern of any truly educated mind, especially in Universities, which are supposed to be the temple of wisdom, knowledge and guidance". The Education Department of Kerala has to investigate the proposals, implementation and consequences of every activity in the educational field when he was the Consultant, and the losses caused on the public exchequer. If deterrent punishment is not meted out without delay, this will be an encouragement for young minds to pervert and ruin the State and its people in a greater style.

[Jacob Nettikkadan](#)

Mr. Jacob Nettikkadan has described many of University products as "Walking, talking, degree holding vegetables" in his book "The Importance of Personality Development", only because even in the most ordinary cases they fail to use their thinking power, especially rational and logical thinking power. They fail to make proper evaluation or judgement and decisions. They never take initiative to speak or do anything good for others, especially to help or serve others. They never appreciate good people or good things. They never think in advance "What to do, when, where, with whom, for what and how". Then what is the difference between these University products and those unfortunate people who have never got a chance to go to school, college or University ?

[Jacob Nettikkadan](#)

When students get a mixture of 'knowledge, ignorance, confusion, doubts and misunderstanding' from classes, their mental growth is negatively affected. Their Mind Power becomes much lower for their age. They suffer from 'fear, excessive shyness, nervousness, lack of confidence and inferiority complex'. They fail to be 'smart, energetic, enthusiastic and dynamic'. A greater danger for the society is that the youth will not have any zeal to acquire knowledge, forget about 'perfect knowledge'. They will never have 'reading habit'. The last danger is that the society will not have 'true scholars or experts or intelligentsia'; only University degree holders will be there. Jacob Nettikkadan.

[Jacob Nettikkadan](#)

Think why most of our teachers are imparting only 'a mixture of knowledge, ignorance, confusions, doubts and misunderstanding' to students. It is mainly because what they themselves got from their teachers is the same thing. As told by teachers who underwent Government training, "The trainers must have been people who shouted slogans or pasted the political party's posters on walls. They don't know even as much as we know. But, at the end of the training, we got our monetary benefits. They spent a huge amount in the name of 'Teachers' training'.

[Jacob Nettikkadan](#)

Those who learn in ordinary schools and colleges for 15 or 16 years or learn (Duplicate) Communicative English conducted by Universities. are hardly able to communicate in English. They know very little about the inside decorations and designs of English. But Jacob Nettikkadan promises more accurate, clear, complete, convincing and scholarly knowledge through his 15 day long Original Communicative English course (in Kochi (Kerala, India) than any PhD from any University on earth. That is because his text book "Easy Way To Learn English" in four volumes contain 5,700 small inventions and discoveries on the existing English language (which are corrections or improvement in teaching English). ### [Good bye Laptop & WELCOME Roll top...](#)

[Jacob Nettikkadan](#)

Have you found the 'definition of education' or actual 'purpose of education' displayed prominently or being told to its students by any educational institution ? So, truly speaking, we do not know what we can expect from the educational institutions against our spending large amounts of money, time and efforts for long years of our life. We simply become happy with what we get ( - marks, promotions and degrees or certificates). Mr. Jacob Nettikkadan defines "education" in his book "Easy Way To Learn English" in four volumes. Visit [www.xavierinstitute.org](http://www.xavierinstitute.org) or [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org) for the definition. (Now the definition is available in JACOB NETTIKKADAN'S NEW BOOK – FOR FREE READING. Visit both websites).

[Jacob Nettikkadan](#)

Mr. Jacob Nettikkadan has proposed to the HRD Minister Mr. Kapil Sibal (in 2010) to introduce the Original Communicative English invented by him in 1978 in all schools of India with the help of his text book "Easy Way To Learn English" in four volumes (in small bits to each class) and allow him to train teachers to teach English according to his methodology. Also to be ensured is that only teachers properly trained by him will teach English. Then the guaranteed result will be : "There will

not be a single student in India in class 12 who cannot speak English fluently and impressively. There will be no unemployment problem in India too, because their Mind Power will increase many times."

Website [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org) or [www.xavierinstitute.org](http://www.xavierinstitute.org) gives two slogans "Communication skill is the life of education" and "Get the ability to think in English and dive into English fluency". How do you rate educational institutions which do not care for these slogans ? What about the Communicative English Degree courses which do not guarantee Communication Skill in English ?

[Jacob Nettikkadan](#)

Jacob Nettikkadan requests the Indian Government to ban all Communicative English courses conducted as "degrees" recognized by Central Government without the techniques for communicating in a language as described in website [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org) or [www.xavierinstitute.org](http://www.xavierinstitute.org) What is your opinion ? Give support, if you are already a victim.

Will you forgive those who conduct "Bacherlor or Master of Communicative English" course without the techniques invented by Jacob Nettikkadan in 1978 to make you speak English in classroom within a very short period ? Be aware of the Original horse invented in 1978 (don't go after its shadow) from website [www.jacobnettikkadan.org](http://www.jacobnettikkadan.org) or [www.xavierinstitute.org](http://www.xavierinstitute.org)
