- 3. St. Albert's College, Kochi,**
- 4. St. Thomas College, Thrissur.**

Sub: 100% suitability of Communicative English Teaching System invented by an Indian “Jacob Nettikkadan”, to make Indians communicate in English very easily, fast and with guarantee

Our Director Mr. Jacob Nettikkadan has been doing personal research **for the last 56 years**, to make the learners of Communicative English Teaching System, invented and

Universally Copy-righted by him, **speak English fluently in an amazingly short time** and provide them total and scholarly command in the English Language **in the easiest way and with guarantee**. He has authored four volumes of his English Text Book “Easy Way To Learn English”, together with another book “The Importance of PERSONALITY DEVELOPMENT”, (also meant for self study) to support this attempt at his own level for the last 31 years.

To give you a quick grasp of the Communicative English Course, offered by him, we are attaching a leaflet in English for your perusal. Our new website www.jnbestenglishteachers.com , which can be read in English and Malayalam at present, to be followed by Hindi shortly. Item No.1,2,3 and 4 under the sub-heading “Ten Items of Jacob Nettikkadan’s Contributions” in our existing websites www.jacobnettikkadan.com / .org , you can get greater details of our course, methodology and the contents of his books.

His seventh Invention “The Language Teaching Technology” (available in the Home Page of the websites) which promises an unimaginable and unusual outcome under the existing conditions i.e. “All the languages in the world can be spoken fluently by the learners of those languages any where, if research is done for the purposes exactly as prescribed by Mr. Nettikkadan. In other words, the world has to do in each language ‘what Mr. Nettikkadan has done in English in the last 56 years of his personal research. (Read the Profile of Inventor Jacob Nettikkadan).

Mr. Jacob Nettikkadan is ready to give a ‘one hour FREE talk on the 100% suitability of the Communicative English Teaching System invented by him, which guarantees the learners to speak English very freely, fluently and naturally, and at the same time acquire a high level, scholarly and amazing command over the English Language. During the talk, the audience will be thrilled to hear breathlessly interesting totally new topics which he has invented or discovered from the English Language, and are unknown to the British people or people other than his own students or readers of his books.

Half an hour can be allotted for questions and answers from your students, professors, Government Researchers, media personnel and the Public. He guarantees that the listeners will not have to suffer ‘Confusions, doubts, misunderstanding etc.’ on what he speaks.

He invented two extra items in the year 2015 : 1). To make Graduates and Postgraduates speak fluent English within five/ten hours’ coaching without using his English Text Books. He will use only a “Magic Chart” which he has invented

earlier and is registered universally through his English Text Books. This is done on the principle of **“learn one’s own mother tongue”**.

2): A new style of learning a small story in English about the birthday celebration of a boy, by using one of his own books **“Easiest English”**, and then learning to convert it into another story, in which process the reader will double his fluency in English. When the reader is taught to use seven more similar modules, the increase in the over-all fluency in English will be amazing.

Mr. Jacob Nettikkadan proposes to start brand new English Communicative Degree Courses in High Level Colleges like yours, which have been granted **“Autonomous Status”** to start your own courses by the Government, so that all the students will speak fluent English, have high, scholarly knowledge in English and be capable to handle English with skill, expertise and high Self-confidence.

Mr. Nettikkadan also proposes to start **A BEST ENGLISH TEACHERS’ TRAINING COURSE** in such Colleges, so that those who come out successful will be **‘world-level expert teachers’** to teach students to guarantee fluency in communication and make them scholarly in all respects. Our intention is to bring foreign students to learn in India **or to produce such good teachers in our colleges and export them to all countries.**

Awaiting your positive and favourable response soon,

With warm personal regards,

JACOB NETTIKKADAN,
Director, J.N. BEST ENGLISHS TEACHERS, KOCHI,
91-9846008621; E-mail: mail@jacobnettikkadan.com / .org

Encl: A leaflet in English about **“How to learn English”** to speak it.

Copy to

The Ernakulam District Collector

Mr. K. Mohammed Y. Safeerulla, IAS,

To kindly recommend and arrange a public talk by me in any of the colleges

mentioned above and to kindly preside the meeting to understand and evaluate the new system of teaching invented by Jacob Nettikkadan.

SLOGAN OF THE NEW SYSTEM :

“ The only method in the world that teaches ‘How to make each expression of idea (each type of sentence) in English to speak it fast with guarantee and without failure. Our four books take you to the top of the English Language through 1,877 steps, teaching one each new expression of Verb (total being 1,877), to make you ‘The best communicator in English’ in 100 hours’ teaching”.
